Legendary Marques

Warehouse #1 Rums of Jamaica - Legendary Marques

Legendary Marques explores the rare, distinctive and intensely aromatic rum styles that made Jamaica legendary.

In Jamaica, a marque is more than a name. It is a distillery's signature recipe - a precise combination of fermentation, raw materials and distillation techniques that creates a unique aromatic identity. Historically, some were produced in tiny quantities for blending, flavoring and even perfume.

Warehouse #1 brings these remarkable spirits out of obscurity, presenting them as individual expressions to explore and enjoy.

From Jamaica's most celebrated rum-producing regions - New Yarmouth, Clarendon, Long Pond, Hampden Estate and Worthy Park - each marque reveals a different side of the island's extraordinary rum-making heritage.

From the explosive intensity of DOK and NYE/WK, to the muscular complexity of TECA, the rare depth of MLC and the distinctive character of WPE:

Five Distilleries. Five Marques. One Island.

These rums are not designed to be uniform. They are designed to be distinctive.

Long fermentations, wild yeasts, traditional pot stills and generations of distilling knowledge create rums alive with tropical fruit, overripe banana, pineapple, spice, olive brine, medicinal notes and the unmistakable Jamaican funk pursued by enthusiasts worldwide.

Each bottling is an invitation to discover the extraordinary diversity contained within a single island.

American Virgin Oak Aging

Warehouse #1 Legendary Marques are matured in carefully selected American virgin oak casks, allowing each rum's uncompromising character to evolve without losing its identity.

Fresh oak brings vanilla, caramel, toasted coconut, warm spice and natural sweetness, while preserving the tropical intensity and high-ester character at the heart of Jamaican rum.

The result is a compelling balance between Jamaica's wild aromatic heritage and the structure of new American oak. The casks add depth, texture and richness, softening the edges without compromising the individuality of each marque.

Virgin oak doesn't tame the rum. It gives it another dimension.

Jamaica's unmistakable funk and explosive aromatics remain firmly intact—now framed by the richness, spice and complexity of freshly charred American oak.

Warehouse #1 Legendary Marques is Jamaica at its most uncompromising - rare marques, authentic production and powerful flavor profiles that could only come from one island.

Discover the Codes

- NYE/WK New Yarmouth: Explosive tropical fruit and intense aromatics.
- MLC Clarendon: Deep, fruity and spicy, with remarkable weight and richness.
- WPE Worthy Park: Vibrant overripe banana, tropical fruit and high-ester intensity.
- TECA Long Pond: Wild, powerful and complex—overripe fruit, olive, spice and unmistakable Jamaican funk.
- DOK Hampden: One of the world's most extreme high-ester marques, delivering extraordinary concentrations of tropical fruit, banana, olive brine and explosive aromatics.
